Formula Ford Race Number Allocation and Printing Guide

In the past MSNZ have provided race number sets to competitors. This service is no longer available so car owners are asked to arrange their own race number sets. The following guide will help you order a race number set from a sign writer.

To achieve uniformity when ordering, the following details and images will be important. We ask for uniformity across all cars in SIFFC, NIFFC and NZFFC.

Standardised Race Number Details

1. Number allocation

- a. Before ordering number sets, contact the series convenor to 'book' a permanent race number. This official process avoids duplications on race day. The allocation spreadsheet is displayed on page 2 and will be updated at www.siff.co.nz for your reference.

2. Background

- a. Dimensions – 310mm high x 220 wide with rounded corners
- b. Colour - semi gloss white
 - black 5mm frame line (refer to image of number 22)

3. Race number

- a. Numeral height – 200 mm
- b. Font – Arial Bold

4. Recommended Sign writer
